ASSOCIATE PRODUCT MANAGER

Associate Product Manager translating 4+ years of high-stakes operational and executive support experience into Agile product delivery. Proven ability to manage cross-functional chaos, ruthlessly prioritize business constraints, and align stakeholder expectations. Adept at transforming ambiguous ideas into structured product backlogs, writing actionable PRDs, and collaborating with engineering teams to drive speed-to-market. Passionate about building user-centric solutions and bridging the gap between business strategy and technical execution.

PRODUCT MANAGEMENT SKILLS

- **Strategy & Prioritization:** Market Discovery , RICE Prioritization Framework , Product Lifecycle Management , OKR Alignment.
- **Documentation & Research:** PRD Writing , User Stories & Acceptance Criteria , Qualitative User Research , Competitive Analysis.
- **Process & Execution:** Agile & Scrum Methodologies (Sprints, Stand-ups, Retrospectives) , Stakeholder Management , Process Optimization.
- **Technical Literacy:** API Fundamentals , Frontend/Backend Logic , Data Validation, HTML5, CSS3, GitHub (Version Control), AI-Assisted Development.

PRODUCT MANAGEMENT PROJECTS

AI Calendar Sync (EAPilot) | [\[View Full PRD\]](#)

- Authored a detailed **Product Requirement Document (PRD)** for an AI-driven scheduling tool.
- Defined **User Stories**, **Acceptance Criteria**, and **Technical Constraints** to resolve cross-timezone conflicts.

Target Savings Feature Improvement (Brassmoney) | [\[Read Case Study\]](#)

- **Conducted targeted user research** with 20+ fintech users; identified a **20% setup abandonment trend** linked to inflexible deduction timing.
- **Leveraged research insights** to propose a UX improvement for variable scheduling, aiming to increase setup completion rates.

PROFESSIONAL EXPERIENCE

Associate Product Manager (Intern) | *Phenomenon Edu Impact* | Abuja, Nigeria | June 2026 – present

- **Agile Workflow & Backlog Management:** Transitioning an unmanaged "ideas-to-dev" pipeline into a structured Agile lifecycle by building and managing a prioritized Jira Scrum backlog across 3 core product epics.
- **Technical Documentation & Alignment:** Driving PRD readiness by translating high-level founder vision into formal User Stories and explicit Acceptance Criteria, ensuring engineering alignment prior to development kickoff.
- **Feature Discovery & Delivery:** Collaborating with engineering to ship critical V1 pre-launch UX optimizations while conducting ongoing discovery to architect the roadmap for a V2 B2B/B2C hiring marketplace.

Communications & Administrative Officer | *Teach The Child Initiative* | Abuja, Nigeria

First stint: Nov 2023 – May 2024

Second stint: Sep 2025 – Dec 2025

- **Spearheaded growth strategy** for the NSQF Campaign, leveraging data-driven content to **increase platform reach by 30%** within 60 days.
- **Managed cross-functional communication workflows** and documentation, ensuring consistent delivery across digital channels.

Executive Assistant to the Head of Engineering | *Ankora Health* | Lagos, Nigeria | Nov 2024 – May 2025.

- **Executed large-scale market discovery**, synthesizing a database of 1,000+ startups to identify high-value business development opportunities.
- **Engineered a centralized product-tracking framework** in Notion; optimized stakeholder visibility and ensured cross-functional alignment on top engineering priorities.

Executive Assistant to the Founder | *Dawali David Media* | Abuja, Nigeria | Jun 2023 – Dec 2024
(Concurrent with Ankora)

- **Managed the full lifecycle of international contract bids (RFPs/RFQs)**; conducted competitive research to achieve a **high conversion rate (85%)**.
- **Led end-to-end project management** for events and client deliveries, coordinating timelines from initial planning through final execution.

EDUCATION

BSc. Mass Communication and Media Studies — Miva Open University, Nigeria

Expected 2027

TOOLS

Product Management & Documentation: Jira, Notion, Trello, Asana, Google Workspace.

Collaboration & Communication: Slack, Zoom, Microsoft Teams.

AI & Analytical Research: ChatGPT, Claude, Gemini (Market Research & Synthesis).

Design & Prototyping: Figma, Canva (Wireframing/Mockups).
